Filed : August 1, 2001

SUMMARY OF INTERVIEW

Identification of Claims Discussed

All of the pending claims were discussed.

Identification of Prior Art Discussed

The references Rouy et al. and Eggerman et al. were discussed.

Proposed Amendments

Amending the claims to recite fully complementary or 20 nucleobase antisense compounds was discussed.

Principal Arguments and Other Matters

Applicants maintained that the general statements regarding antisense in Rouy et al. in combination with the other cited art did not lead a skilled artisan to oligonucleotides with the all of the features recited in the claims.

Results of Interview

No agreement was reached.
